

PLASTIC PACKAGING COLLECTION

2020

ARTEKNO EESTI OÜ

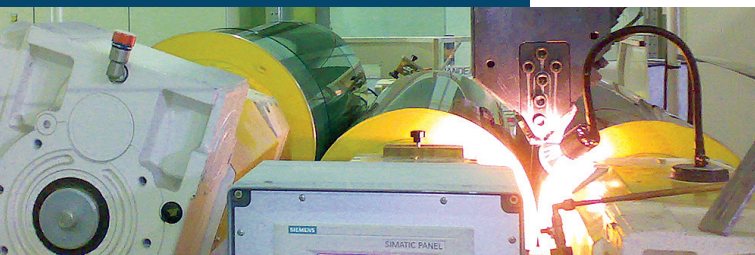

Artekno Eesti OÜ have been focusing in food packaging industry since 2009.

Our mission is to produce various solutions of high-quality food packaging from recyclable material Polypropylene (PP).

We are proud to control with our professional personnel different production methods as foil extrusion, thermoforming and injection molding with IML. During the production process, our products undergo regular quality controls.

Our focus is in our partners. We want to strengthen our partnership further on with flexibility, reliability and tight co-operation.

We are looking forward to work with you!
